COST OF BITUMINOUS FIGHT TO MINE WORKERS' UNION.

Immigrants and Others Shipped South to Work in Mines Are Met by Pickets and Sent Back North--License Bureau Hearing on Complaint by Strikers' Union.

Evidence suggesting that extraordinary efforts were being made by the United Mine Workers to prevent the sending of men from this city to the Southern bituminous coal mines, where strikes are prevailing, was brought out yesterday at hearings held by Commissioner of Licenses Keating. The investigation was upon charges brought against two employment agencies in this city which have been engaging men to take the places of the strikers.

One witness testified that he had been

informed by a representative of the Mine Workers' Union, of which John Mitchell is president, that \$1,500,000 had been spent to keep alive the strike in the mines of the Tennessee Coal, Iron and Railroad Company in Alabama and Tennessee. Hugh Dewitt general labor agent of the company, told Commissioner Keating that the union pays \$1,000 a day to support the men who are out on strike, and that from its own books it appears that \$25,000 was spent in buying return railroad tickets for men who were sent South by the immigration societies and employment agencies. A large number of men are being sent from Northern points every day to take the paces of strikers, and many of these are induced by union pickets when they reach Birmingham and other Southern cities to return to their omes without going near the mines. In homes without going hear the limites. In every case the union purchases railroad tickets back to the point of departure.

Incidentally, the testimony threw much light upon the way the workmen are treated by some of the employment agents who send them South by the carload, Somesend them South by the carload. Some-times as many as seventy or eighty men and several women are put into a railroad car at Jersey City, and they are not allowed to leave it until their destination is reached. The journey occupies three or four days, and the food upon which the travelers exist consists of rye bread, bologna sausage

and water.

The hearing held yesterday by Commissioner Keating was on a charge made by the Southern Immigration Society against S. S. Schwartz, an employment agent of 113 First street, who was accused of making false representations to the men he sent to the mines. Schwartz, on his part, made counter charges against the society, asserting that it also had acted as an employment agency without having first procured a license. The hearing was not concluded vesterciay.

PRINCE HENRY'S TOURMALIN. He Pays \$30,000 for a Gem Found in

PORTLAND, Me.; July 19 .- Prince Henry of Prussia has just purchased for \$30,000 through an agent a wonderful Maine tourmalin which the original finder, Wesley Wight, a Bethel, Me., farmer found kicking about a country road. Wight has never forgiven himself for parting for a trifle with a gem which has become valuable but he is not alone in his regrets, for a Bethel jeweler sold it for only a small fraction of its real value. Prince Henry saw it on his American tour and reserved it for pur-chase. He recently sent over to buy it a famous lapidary of Berlin, who paid \$30,000 for it in Prince Henry's name. The most beautiful tourmalins are found in Maine. A beautiful tourmalins are found in Maine. A perfect tourmalin gem mined at the famous Mount Mioa mine at Paris, Me., of a supperior green color slightly tinged with blue and weighing 68½ carats, being the largest of its species known, was procured by Tiffany & Co. for a large price. L. B. Merrili of Paris, Me., has now in his collection, however, a nodule of tourmalin of equally fine color and purity, weighing 411 carats, which, allowing one half waste in cutting, would furnish two gems of 100 carats each. This gem may be classed as the largest green tourmalin in the world and its value is difficult to estimate.

An officer of the United States Army who wears silver eagles was asked what most impressed him on his return to New York after an absence of several years. He was in the Cuban affair, and his station in the Philippines was nearer the equator than United States soldiers have ever lived

than United States soldiers have ever lived before, so he has seen some hot and lively times of various kinds. His answer was:

"The singular combination of laziness and swiftness that New Yorkers indulge in. The pace you keep is incredible, and you accomplish it by doing nothing for yourselves, but having everything done for you—by lightning, if possible. In a barber shop—or should I say a tonsorial parlor?—yesterday, I saw a man being shaved, manicured and shoe polished all at one time. No doubt it is an old story to New Yorkers, but it looks swift to me. Those are all operations which in the good old days many a busy man had to do for himself, but now, too lazy to trim his own nails, a man has three people working over him at once to save his time.

"The barber wanted to massage my face, but I told him I'd get along without that at present."

It was opened on Eighth avenue a couple of weeks ago, a few blocks above Twenty-third street, and already it has a large trade among lovers of French drinks and French food. of the Tenderloin station were appointed a committee by Police Commissioner McAdoo yesterday to look over the interior plans of the new Tenderloin police station. Work will be begun on the new building in about six weeks.

It is Mr. McAdoo's idea to have all future police stations built on a uniform style. He wants the new Tenderloin station to be a model. Thomas Short is the architect. The Commissioner has approved of the exterior plans, and now he seeks the advice of expert policemen before he approves of the plans for the interior.

WHITE DUCK FOR MARINE COPS.

McAdoo Doem't See Why They Should Sweat Through the Summer in Blue.

Police Commissioner McAdoo is conemplating putting the members of the harbor squad into white duck. After lookharbor squad into white duck. After looking over the men at the Battery, where they were working in hot blue uniforms in the sun, Mr. McAdoo decided that they were entitled to cooler attire.

Some years ago these same men wore white uniforms. When Bill Devery, then Chief of Police, saw them he told them that they were policemen and not sailors and ordered them back to blue cloth.

On account of the heat no performance "The Rollicking Girl" was given at the Herald Square Theater last night. The performances will be discontinued for the rest of the week, and on Monday night next Sam Bernard and his company will resume the run of the piece.

Charles Dillingham engaged yesterday Miss Charlotte Walker as leading lady for Robert Loraine's company that is to present Bernard Shaw's comedy, "Man and Superman," at the Hudson Theater, beginning Sept. 4.

Julie Herne was engaged yesterday by Henry W. Savage for the rôle of Rose Dawson in the new Edward E. Kidder comedy, "Easy Dawson," which will introduce Raymond Hitchcock as a comedy star. Miss Herne is a daughter of the late James A. Herne, and she has written plays.

The Three Sisters Herzog-Pamaras, acrobats, who have been performing at the London Hippodrome for a year, sailed for New York yesterday by the North German Lloyd steamer to fill an engagement at the Wistaria Grove.

"The Rose of Bovina" is the title of a new Western play just finished by Jane Mauldin Feigl. Mrs. Feigl is the author of "Texas." which will be the opening attraction at the West End Theater in August. Miss Charlotte Walker as leading lady for

"The many admirers of Swinburne will rub their eves after reading the first few pages. Here is a book full from cover to cover with humor, wit, bright epigrams -and, stranger still, with boyish spirits and fun."-New York Sun.

"It is brilliantly written with the same sweep of fancy, passionate warmth and grace of narration that his poetry possesses."-Evening Post.

"Here the comic element is everywhere. We should be willing to part with all the tragedies by the same hand rather than lose this prose story. It is a very charming, a very human, a very fun-loving Swinburne."-Even-
